Healthcare & Hospitality Training Program (HHTP)

This program provides students with key skills needed to succeed in customer service, entry-level jobs in hotels and hospitals such as: Food Service, Patient Services, and Environmental Services (Housekeeping). Students can explore different career pathways and leave the course with real-life skills that appeal to service-based employers.

In the program’s final two weeks, participants job-shadow employees at one of our partner hotels, and engage with professionals who work in the healthcare industry. Upon completion, staff work with each participant to land a first job in an area hotel or hospital.

*Students must have U.S. work experience and U.S. Work Authorization in order to apply.*
