IINE Advocacy Calls to Action

Oppose the Office of Remigration and Gutting of the Refugee Program

Level: Federal

Branch: House

Call Script

I'm calling to urge Representative [Last Name] to oppose the creation of the State Department's Office of Remigration and any restructuring that undermines the U.S. Refugee Admissions Program.

This proposal subverts the very idea of the United States as a multi-racial democracy, a defender of freedom, and a haven for people fleeing persecution. Evoking projects of white nationalist ethnic cleansing, it threatens to forcibly return people to the very places they fled, where their lives will again be in danger.

USRAP has saved the lives of millions of people from around the world, and helping them integrate into our communities has strengthened our culture, economy, and global standing.

I urge Representative [Last Name] to publicly take the lead in opposing this dangerous and un-American proposal and stand firmly in support of refugee protections.

Thank you.

Email Script

Dear Representative [Last Name],

I'm writing as a resident of [your town/city] to strongly urge you to oppose the proposed creation of the Office of Remigration within the State Department and any restructuring that threatens the U.S. Refugee Admissions Program (USRAP).

This proposal subverts the very idea of the United States as a multi-racial democracy, a defender of freedom, and a haven for people fleeing persecution. Evoking projects of white nationalist ethnic cleansing, it threatens to forcibly return people to the very places they fled, where their lives will again be in danger.

Over the past four decades, USRAP has saved the lives of more than 3 million refugees fleeing violence, persecution, and war. These individuals and families have enriched our communities, contributed to our economy, and strengthened the cultural fabric of our nation. Their presence reaffirms America's role as a global leader in upholding human rights and humanitarian protection.

Please take a strong stand against this harmful proposal. I urge you to oppose any congressional approval for the restructuring and to speak out in defense of USRAP and those who rely on it.

Sincerely,

[Your Name]
